## Work Experience

### Software Engineer

07/2018 - Present

Marine Logistics Company

Damietta Port, Egypt

- Designed, built, and maintain 8 production systems — zero other developers involved.
- 300+ staff across all departments use the systems daily.
- 1,500+ shipping & vessel operations tracked per day in real time.
- Cut cargo lookup time ~70% vs. previous manual spreadsheet workflows.
- 100% paperless operations: HR, leave requests, IT tickets, stores.
- Full Linux VPS deployment: Nginx config, Redis caching, queue workers, long-term maintenance

### Freelance Developer

2026 - Present

Mostaq Platform

- Laravel APIs, React Native apps & eCommerce platforms for
- Egypt & Middle East clients.
- Built Pharmacy Insurance Tracking System and Wasfaty POS both live in production.

### Indie Developer

2023 - Present

Brightline Studio

- Andriod apps published to Google Play — AdMob + RevenueCat monetization.
